

# Harry Probert

## Junior Frontend Developer

Midsomer Norton, Bath | 0787463689 | [haxmo25@gmail.com](mailto:haxmo25@gmail.com) | [linkedin.com/in/harryprobert/](https://linkedin.com/in/harryprobert/) | [github.com/hpro97](https://github.com/hpro97)

## Professional Summary

Front-End Web Developer/IT professional with a passion for coding and computer-related subjects since secondary school. Specialized in hardware and basic Web Design through a GCSE equivalent course in Spain. Consistently engaged in coding projects and committed to continuous learning, I am always looking to improve my technical skills on platforms like Codewars, LeetCode, FreeCodeCamp, Udemy coding courses, and boot camps. Having recently graduated from a Front-End Web Development Bootcamp, I'm seeking entry-level opportunities in Software Development, Data Analysis/Science or related fields to continue applying and expanding my technical skills.

## Skills

- **Technical:** React, Bootstrap, JavaScript, JSX, CSS, HTML, Node.js, jQuery, GitHub, APIs
- **Soft:** Problem-solving, Attention to Detail, Technical Aptitude, Critical Thinking, Adaptability, Safety Focus, Documentation Skills, Teamwork, Communication, Patience and Resilience, Analytical Thinking, Time Management, Creativity, Continuous Learning.
- **Languages:** Native in English and fluent in Spanish

## Projects

**React Portfolio** | [github.com/hpro97/portfolioReact](https://github.com/hpro97/portfolioReact) | ongoing (not deployed as of yet)

- **Summary:** landing page for my portfolio of technical projects including routing and integration of Axios and font awesome amongst other technologies
- **Role:** Sole author
- **Technologies:** React, JavaScript, HTML, CSS, Bootstrap

**SentraPass** | [github.com/SebZG/SentraPass](https://github.com/SebZG/SentraPass) | [sentrapass.netlify.app/](https://sentrapass.netlify.app/)

- **Description:** password security website that allows users to store passwords and website links securely in one place
- **Role:** Contributed as member of a team of 6 in the development of the landing page, password generation section, styling, QA, and Project Management Technologies: React, Bootstrap, CSS, JavaScript, JSX, HTML, NPM libraries, Firebase, Jira

## Work Experience

September 2017 - October 2023

**Bridges Electrical Engineering, Midsomer Norton** – *Electrician*

- 18th Edition Gold Card electrician with 6 years of experience in electrical installation, including control panels, ICAs, and field kit. Across thousands of water and nuclear sites.
- Daily interpretation of documentation and schematics like BCDs, loops, and diagrams.

- High standard of H&S demonstrated through allowed access to security clearance and high-risk areas. Such as Hinkley Point (amongst other security clearance sites), and confined space qualifications. With dozens of H&S and construction industry-specific training/courses available upon request.
- Shutdowns & changeovers consisting of technical tasks such as HMI operation, PLC wiring, level programming, site functionality, and telemetry installation and testing, mainly for Wessex Water.
- Frequently delivering sites ahead of schedule as demonstrated through the WW S2000 changeover scheme, averaging 40-55% increase in daily productivity compared to planned works.

November 2015 - March 2017

### **Self-Employed, Valencia, Spain - TEFL teacher**

- Teaching one-on-one classes to higher education students (ranging between the ages of 17 - 28) through original class planning and student-dependent dynamic lesson creation.
- Strong interpersonal skills for effective communication and collaboration demonstrated through academic and language success of Spanish and South American students.
- Fostered a dynamic learning environment by incorporating diverse teaching methodologies, including techniques such as: communicative language teaching, direct methodology, situational language teaching, the lexical approach, and elicitation.
- Facilitated students' academic growth by providing constructive feedback on writing assignments and guiding them through the revision process, resulting in all students completing Cambridge language exams, ranging from A2 - C2
- Promoted cultural awareness through the use of slang and colloquial terms appropriate for living and working in the UK, which resulted in 3 students receiving offers of employment in the UK for periods ranging from 6 months - 4 years

## **Education**

November 2023 - April 2024

### **EdX bootcamp (certification through Birmingham University) - Front-End student**

- Learned frontend fundamentals and frameworks as part of a 16-week intensive bootcamp in Frontend Web Development
- Collaborated with colleagues on 2 group projects by developing the project plan, wireframing, and developing web applications over 2 weeks for each project, receiving a 100% grade
- Received great feedback and an overall grade of 99.95% for the 13 challenges and 2 group projects submitted

September 2019 - June 2023

### **Electrical Installation (Bath College) - NVQ LVL 3**

June 2017 - November 2017

### **Teacher Of English To Speakers Of Other Languages (The TEFL Academy - EFL Teacher Trainer Provider) - Certificate**
